

## International delegation to Singapore 31 Oct – 2 Nov 2018- Draft program

*Initiative is taken by partners in the Norwegian Solar Energy Cluster - Innovation group 'Floating PV- to join the 'International Floating Solar Symposium' (IFSS) 'Asia Clean Energy Summit' (ACES) in Singapore. The aim is to take a strong position in the Global FPV market for Norwegian companies. We will participate at the conference with speakers and organize meetings with SERIS and others we would like to meet. We will also organize a workshop.*

Qatar	2.11	20.45	3.11	06.35	Doha	16t 50 min

Background: SERIS is operating the world's largest testbed for Floating PV in Singapore. Last year they started a "Floating Solar" conference, called the International Floating Solar Symposium" (IFSS), which turned out to be a great success, with more than 120pax from all around the world. This year they will cater for ~150pax, and we will have all stakeholder along the Floating PV value chain there, from suppliers (floats, modules, inverters), project developers, academia all the way to the financial community (banks, investors, insurance companies), including the World Bank. SERIS and the World Bank will also launch the First Guidebook on Floating PV at IFSS 2018.
